Career Focus: Cybersecurity & Digital Design Specialist

Professional Summary

Detail-oriented cybersecurity graduate student with a strong foundation in information security, risk management, and digital systems, combined with a background in graphic design and digital media. Skilled in translating complex technical concepts into clear visual and written materials. Experienced with Wireshark, Windows, macOS, Microsoft 365, and industry-standard creative tools, including Adobe Creative Suite, Procreate, Autodesk, and Unreal Engine. Seeking an entry-level hybrid role supporting cybersecurity operations, training, documentation, or awareness initiatives.
